

CHETLA AKSHITHA

Mobile: +91 9392502856 | Email: akshithachetla2004@gmail.com

OBJECTIVE:

Motivated Computer Science undergraduate with expertise in Python, MySQL, and front-end technologies. Seeking a software development role to apply my programming, problem-solving, and collaborative skills toward building scalable and efficient software solutions.

EDUCATION:

Bachelor of Technology (CSE-Data Science)	2023-2027
Nalla Narasimha Reddy Education Society's Group of Institute of Engineering and Technology Hyderabad	CGPA:8.0/10
Intermediate (MPC)	2021-2023
Alphores Junior College Karimnagar	Marks:913
SSC	2020-2021
Manasa High School Jagital	CGPA:10/10

TECHNICAL SKILLS:

-
- Programming: Python
 - Front End: HTML, CSS
 - Database: MySQL
 - Libraries: NumPy, Pandas
 - Tools: Git, GitHub, VS Code
 - Machine Learning: Supervised Learning, Unsupervised Learning, NLP □ Additional Tools: MS Word, Excel

PROJECTS:

Smart Mirror Using Machine Learning and Real-Time Weather Data

- Designed an interactive smart mirror system using Python to display real-time date, time, and weather updates.
- Integrated OpenWeatherMap API and machine learning logic to provide weather-based clothing recommendations.
- Implemented machine learning logic to provide weather-based clothing recommendations.
- Built a real-time dashboard interface for displaying weather insights and alerts.
- Enhanced user experience through smart display and real-time data processing.
- Technologies Used: Python, OpenWeatherMap API, Machine Learning, JSON, VS Code.

Sales Forecasting for a Retail Store

- Developed a sales forecasting system using Python and machine learning techniques.
- Applied Linear Regression using Scikit-learn to predict future sales trends.
- Performed data preprocessing and analysis using Pandas and NumPy.
- Built an interactive dashboard using Streamlit to visualize sales performance.
- Created visual analytics using Plotly to understand seasonal trends and patterns.
- Enabled data-driven decision-making for inventory planning and business growth. □ Technologies Used: Python, Pandas, NumPy, Scikit-learn, Streamlit, Plotly

ACHIEVEMENTS

-
- Participated in HACKATTACK-25, a 24-hour National-Level Hackathon (April 2025).
 - Participated in Tech Samprathi 2K25, a National Level Technical Symposium at Nalla Narasimha Reddy Education Society's Group of Institutions, gaining exposure to technical discussions and innovation challenges.
 - Gained Participated in RAMPAGE a 24-hour National-Level Hackathon at KLH Bachupally Campus (January 2026).

CERTIFICATIONS:

-
- Python Zero to Hero from GUVI
 - Hacker Rank -Python(Basic)
 - Data Analytics Job Simulation from Deloitte
 - MYSQL from HackerRank
